Lisbon, 25th—Dynamite bomb exploded at the gate of the Governor's house and smashed the windows.

St. Petersburg, 25th—The Shah received the Diplomatic Corps yesterday and at night went to the Peterhoff Theatre with the Czarina and Grand Duke Sergius.

Paris, 26th.—Visit of Humbert to Strasbourg is the mad sensation of the day. The *France* says: "Humbert pays us generously for the death of 100,000 Frenchmen in Lombardy to liberate Italy". The *National* says: "We cannot believe that Humbert would gratuitiously wound and insult France. Victor Emmanuel's son should consider the feelings of France as sacred".

The *Paris* says that the issue of Panama Canal Bonds has been abandoned.

Berlin 26th.—It is said that Humbert's visit to Strasbourg has been abandoned on account of telegrams received from the Italian Ambassador in Paris stating that the French public were greatly excited, and that a night attack on the fortress was contemplated. When Crispi had consulted with Bismarck ft was announced that the visit had been abandoned, as neither he nor Bismarck wished to exasperate France as yet. The revised treaty agreed on during Humbert's visit has not yet received the Austrian Emperor's consent. The treaty includes definite plan for mobilizing the Italian army in case or war. Crispi wished to settle the Papal question under a solemn promise of pursuing a moderate policy towards the Vatican, and asked the Austrian Chancellor to join in pressing the Pope to make peace with the Quirinal. Emperor of Austria with much reluctance consented to Kalnoky's interference in the matter; and the Pope, knowing that the Emperor was with him, rejected the proposals. The result is a complete breakdown of the revision of the alliance treaty, which will probably not be signed till Emperor Francis and Kalnoky visit this city. The Italian Generals Roland and Seroni will remain in Berlin to arrange details of the military convention. There are rumours that the differences with Austria will lead to a rupture of the alliance. The Austrian Emperor is disposed to arrange the Balkan question with Russia. The Official Circular denies that a rupture is within the bounds of possibility.

King Humbert has written a letter thanking the German people for their splendid reception, and has given 29,000 marks to public charities.

New York, 26th.—Steamer Alvena, of Atlas line, has sailed for Greytown with navvies and materials for the Nicaragua Canal works.

MINISTER VARELA'S PROJECTS.

Public opinion rarely errs, and these various projects to reform the currency and remodel our Finance Department would have met with unanimous approval, but for the violence and severity of the project respecting the private Banks All admit that the tax imposed on balances in account current every 30 days is not only excessive, but inconvenient and impolitic.

It will, of course, be urged that all these private banks by coming in under the free banking law can escape both the tax and the inconvenience, but the question before us is the broad one: Has the Minister the right or the power to impose such a fine on private banking institutions? Public opinion as far as we can discover say no. It is clear to all that the object of the Minister is to compel these private banks to come under the law, but H. E. might have used other and less objectionable means than proposing a law which is calculated to create division and animosity here, and seriously affect our credit abroad. We believe that, had the Minister consulted with the bank managers and in a friendly manner asked them to join his free banking law, not one of them would have refused; but the despotism of the projected law is its chief objection, since people naturally say, if the liberty of commerce and banking is to be subjected to such severe and violent measures, then the constitutional guarantee under which we all conduct our business is, the least to say, rather shaky.

The creation of a Controller and a National Treasury will doubtless meet a want, and under good and honest administration will prove an additional guarantee for the ultimate conversion of our currency. The scheme is an excellent one if properly carried out, and that no gold certificates of deposit be allowed to circulate without a corresponding amount in specie existing in the Treasury. The gold, owing to various causes, may be all drawn out, but the gold deposit notes must also be withdrawn. So long as the Treasury works on this basis, which is the fundamental spirit of the project, all will go well; and Minister Varela may rest assured that when the public has full confidence that every gold deposit note is represented by its equivalent in gold in the Treasury, the battle for specie payments is half won.

The project for the conversion of National currency cedulas into gold cedulas has met with the most unanimous approval All see the drift and excellence of the projected law placing for permanent investment abroad a stock which hitherto fluctuated with the price of gold, and came and went between this and the London market with a frequency that at times affected our exchange market and the value of our circulating medium. So far, therefore, as regards these projects, public opinion is in their favor.

It requires no great study or mellowed experience to forsee that on these projects becoming law the market will become supplied with a double currency, one being gold and convertible at sight, representing the present total issue of the National Bank, and the other moneda legal,' or paper issue, which, if we except the gold "conformes" of the banks, is at present the sole issue of the country. Minister Varela, by favoring the National Bank and giving to its notes the preferent right to purchase the treasury gold notes, aims at helping the bank and driving the "moneda legal" notes out of the market, to be replaced by his gold treasury notes, which is a most excellent scheme, but will need all Mr. Varela's supervision to see that it works well. On the opening of the new Treasury Department the National Bank will, we suppose, send in say 20 millions of its notes, and get in exchange the Treasury gold notes. The discounts of the bank will, of course, take a new current, and we shall all be borrowing in gold instead of paper, which will increase the interest of the market to keep gold down. The productive elements of the country are even superior to its extravagance, and so long as the seasons keep favorable and our crops grow as they have grown and fresh hands keep coming into the country, we need have no great fear of the rates of exchange falling much lower than they are at present. The luminous prologues of the Minister to these projects instruct the public mind on points which are so frequently overlooked; and Minister Varela may claim the honor of being the first to measure the impetus and the strain of two hundred thousand fresh hands arriving yearly in the Plate.

It is indeed to be regretted that the intrinsic excellence of many of these projects should be clouded by an oppressive and impolitic law against our private banks; and although it is not probable that any remarks of ours will succeed in the withdrawal of the measure, still they may tend to form the proper basis of a strong opposition in Congress. The only fault of our private banks is their excellent management and great prosperity. Many of these banks have done more for the credit of the River Plate in Europe than perhaps the Minister is willing to admit. No one that knows anything of this market can tax them with tyranny or an improper use of the position and influence which their capital and standing have secured. At some of the most difficult politicalmoments these banks have helped the government and helped the market. The shareholders of these foreign private banks are for the most part people in good and influentiel position in Europe, moving in circles where a good word for the country is worth at times millions. The project in question, although not calculated to injure them, is certainly likely to offend them, and herein is the poison of law. We believe with Deputy Portela that it will be a good thing for this country when we have a hundred such banks as the London and River Plate, the English Bank of the River Plate and the Banco de Italia and Rio de la Plate; and any law calculated to restrict their number is an error. The private banks, when they see their way clear, and the excellent reforms introduced by Mr. Varela bearing good fruit, will be only too happy to join in the general banking fraternity under what is termed the free banking law; but to force them against their will to join, to tax them up to the eyes if they remain out; to send government inspectors into their banks every 30 days, open their ledgers, read the secrets of the market and the balances Dr. and Cr. of every merchant and trader in the city, is a most unjust, improper and impolitic measure, and every way unworthy of the genius and talent of Rufino Varela.

The French Mails

London, May 4th.

More than one interesting announcement was made in the House of Commons yesterday. In the first place, it was made known that the Earl of Northbrook has accepted the presidency of the promised Royal Commission on Mining Royalties. Then it is not true, the Under-Secretary for Foreign Affairs assured the House, that the absence of the British Ambassador from Paris is the result of an arrangement between her Majesty's Government and the Governments of certain other countries whose representatives happen simultaneously to be absent from the French capital. Lord Lytton, Sir James Fergusson further intimated, had not been invited to attend the Exhibition. Viscount Lewisham, representing the Agricultural Department of the Privy Council, stated that the proposal to admit the importation of live animals from Holland would be reconsidered. Mr. Shaw-Lefevre has abandoned for this session the bill to authorize the erection of a monumental chapel in connection with Westminster Abbey.

Mr. W. H. Smith yesterday resumed his duties as Leader of the House of Commons, and in that capacity answered several questions, though he declined, except by a humorous remark, to respond to the invitation addressed to him by Sir Wilfrid Lawson to state whether the Government really contemplate the withdrawal of the Sugar Convention Bill. A prominent personal incident of the sitting was the introduction of Mr. John Albert Bright as successor to his father in the representation of Central Birmingham. The ceremony was not accomplished without hitches. Whilst the new member was standing at the "bar" of the House with his sponsors waiting to be called by the Speaker to the table, some one discovered that there was a technical error in the return to the writ, the Christian name having been transposed. Hence ensued a hurrying to and fro the on part of the officials and the members specially interested, but it was soon found, that Mr. Speaker would permit the clerical mistake to be rectified. Viscount Wolmer, the principal Liberal Unionist whip, publicly declared of his own knowledge that the chosen of Central Birmingham was "John Albert," not "Albert John," and the representative of the Crown Office was thereupon sent for to put the matter right. When, clothed in wig and gown, the officer arrived at the table, it was found that the erroneous return itself had gone a-missing, and he had to retire behind the chair for a few minutes until the Clerk of the House, by prompt search, recovered it. Then the representative of the Crown Office came forward, and by direction of the Speaker amended the innocently-offending document. A third delay, only momentary occurred upon Mr. Bright's arrival at the table. Mr. Palgrave offered him, in order that he might be "sworn" a Testament with a printed copy of the oath. Mr. Bright declined and claimed, as a Quaker to affirm. Search had now to be made for the form of affirmation, which was soon found in the despatch box in front of Mr. Gladstone, whereupon the formalities were speedily completed amid loud cheers.

Never, perhaps, were more striking figures given to the world than those contained in a Parliamentary paper to be issued to-day—the report, namely, of the British directors of the Suez Canal. From these statistics it appears that out of every hundred ships which pass through the Canal more than seventy-eight are British. In other words our ships outnumber those of all the rest of the world nearly four times, and the proportion is increasing in our favour year by year. We send through more than thirteen times as many vessels as France, seventeen times as many as Italy, and nearly twenty-two times as many as Germany. The per centages are: British, 78·65; French, 5·33; Italy, 4·03; German, 3·58. What is almost as remarkable is that the trade through the Canal of countries bordering on the Mediterranean is falling off slightly, while ours, spite of the disadvantage of distance, is advancing. Germany also has forged ahead a little, so as now to exceed her neighbour Holland.

M. Henri Rochefort's daughter, Madame Dufaux, came to London on Wednesday to seek her father, not being aware that he was at Dover. On her return a very affecting scene took place at the Hotel de Paris, where M. Rochefort is staying. He has, it seems, now decided not to proceed to Paris to his son's funeral.

It may interest "M.M. les Chevaliers d'Industrie" of this realm to know that during the Paris Exhibition a number of English detectives will be posted at Calais, Boulogne, Dieppe, and Havre. It will be the mission of these officials to watch the arrivals of all the English boats and to point out unwelcome visitors to the French police. By taking these precautions the Government of the Republic hopes to prevent the Exhibition from becoming the happy hunting-ground of English pickpockets, and Paris in general from being preyed upon by marauders from perfidious Albion.

According to Madame de Stael, the opinion of foreigners is in some respects equivalent to the verdict of posterity. If the maxim in question meets with the acquiescence of M. Emile Zola, that 'litterateur'—famous in his own country and notorious in ours—might derive much edification from the perusal of the proceedings at Bow-street yesterday, against an unlucky bookseller who has been committed for trial for selling translations of M. Zola's romances. The prosecution considered that the tenour of "L'Assommoir" and "Germinal" was laudable, but that both contained passages which were highly objectionable, "The Fortunes of the Rougeons" was also admitted to be not a hopelessly immoral novel, and in these three cases the summonses were adjourned "sin die." Might it not save an immensity of trouble to publishers, booksellers, magistrates, judges, and juries if a "Congregation of the Index" were established by Act of Parliament? A book perused by the official censor, and popped, if deemed improper, into the "Index Expurgatoris," would be at once branded as an illicit publication, and the Vigilance Society would cease to have a "raison d'être."

Fraud and deception of the worst kind were proved up to the hilt against William Penfold Cope, "Minister of the Gospel," who yesterday applied for his discharge from the Bankruptcy Court, and ignominiously failed to obtain it. This wolf in shepherd's clothing had been a Christian minister for twenty-three years, and for sixteen of them had supplied spiritual nutriment to the good folk of the Muze Fond Chapel, Old Kent Road.

The third day of the Newmarket Meeting had the advantage of charming weather and of sunshine that was really spring-like So far as the Jockey Club Stand was concerned the attendance was much the same as on the preceding days. The only features of interest in the racing were the victory of Saucy Lass in the High-Weight Handicap, and the match for £1,000 between Tortoise and Mellifont, the former ridden by Tom Cannon and the latter by its owner, Mr. Abington. The skill and coolness of the distinguished professional were amply exhibited, and he beat the amateur without much effort.

The news of the death of the famous racehorse, Robert the Devil, at Beenham Stud House, on Wednesday evening, has been received with much concern in sporting circles. Great sympathy, moreover, is expressed with Mr. Waring, who, it may be remembered, gave 8,000 guineas for the horse. None who saw the Derby of 1880 can forget the slashing "set to" which occurred between the son of Bertram and Bend Or, the latter just leading the Blue Ribbon for the Duke of Westminster in the last stride. And then came the sensational and groundless objection to the winner. Four times afterwards did the cracks of their year meet, when Robert amply retrieved his defeat, carrying off the St. Leger, Bend Or being unplaced, the Great Foal Stakes, Bend Or being beaten by a head; and the Great Champion Stakes, when he worsted his rival by ten lengths. And in the same year he carried off the Cesarewitch in a field of twenty-one runners with the goodly weight of 8st 6lb on his back. The next year, when the pair met in the Epsom Gold Cup, the race was reduced to a match, and amid intense excitement Bend Or won by a neck. At Beenham Stud Robert the Devil has not been a conspicuous success, but his stock have fetched good prices, and it is to be hoped that some of his younger offspring may yet develop the brilliant qualities of their sire. The cause of the horse's death is reported to be due to his having been cast in his box.

On the Stock Exchange, yesterday, Foreign Government bonds were bought for the Continent, and a fresh advance was gained in several instances on the favourable progress of the Paris liquidation. Home railways were dull, but finally above the lowest, and American lines and Grand Trunk issues gave way; the latter being sold on the adverse working statement and weekly traffic return. Mexican (Vera Cruz), however, improved. Copper, gold, and diamond shares were neglected and dull. Consols closed ½ per cent better. In the open market discount was quoted 1⅞ per cent, and the rate for short loans was 1 to 1½ per cent. A withdrawal of 100,000 sovereigns for the Cape was reported at the Bank.

LONDON LETTER.

(From our own Correspondent)

DAY AFTER GOOD FRIDAY

April 20

With the very best intentions I can do nothing for you. I am not a boating man or a volunteer, and if I were I should probably be too drowned or too drunk to write. "Where are the newspapers?" I cry as I enter my club. "The reading-room 's a cleaning Sir." That means that nobody is supposed to be in London. I find the newspapers in the library, but there is nothing in them. I have read everything from the "Universal Review" to "Picadilly" and from the "Statist" to the "Musical Standard." In the *Daily News* there is a description of Balfour's "battering ram," which appears to be a fifteen foot pole worked with pulleys, and pointed like a pencil and tipped with iron. It would no doubt quickly batter in a Donegal residence composed of turf, but I fail to see in it any device for that "protection of the police" Mr. Balfour spoke of. He was evidently thinking of his schooldays and the old pictures of the siege of Jerusalem by Titus. His own "Maiden" is a purely offensive weapon and there are signs that his tactics in Ireland are about to fail. The Irish courts of appeal have released Father McFadden on a nominal bail. The coercionist government is burning its fingers in Ireland and elsewhere. The split in Birmingham between the Tories and the Unionists, the sugar convention, difficulties in Newfoundland between the colonists and the French, are little clouds which a month hence may be much bigger than a man's hand. The fair-trade and protectionist leanings of some members of the Government are likely to be the death of it, unless Lord Salisbury has vigor enough to throw over Baron de Worms and lean solely on Mr Chamberlain and the Liberal dissentients—a broken reed, I confess.

The name of the Argentine Republic does not appear in this day's papers, but there is one little subject worthy of your attention—the comparative cost of living in Paris and London. This was discussed at the last monthly dinner of the British Chamber of Commerce in Paris. The opinion was unanimous that living in Paris was from 20 to 40 per cent dearer than in London. Sir Edward Blount, K.C.B., the old banker whom most of us know who have ever been in want of cash in Paris in old days, presided at the dinner, and he attributed the relative cheapness of living in London to free trade. He came to Paris in 1831, and at that period living there was one-third cheaper than in London. One merchant who was present declared that at the present time his own relations in London, whose expenditure was about the same as his own, had their house and garden and kept their carriage, whilst he in Paris had to live in a flat and ride in a 'bus. The only things that were cheaper in Paris were amusements. All the necessaries of life were dear, including means of locomotion. The want of underground and suburban railways in Paris was felt strongly. Sir Edward Blount stated that a special commission was some time ago sent to England from France by French employers of labour to inspect English work and workers and modes of working, and he came back with the report that the workman in England produced one third more for the same money than a French workman in France. Sir Edward added that he found that whilst the French railway companies paid about the same wages to their employees they required five to do the work done by three in England.

Some of these differences refer to physical and moral distinctions of mere race but how men's lives can be hardened and harassed by stupid legislation is shown clearly by the experiences of the British Chamber of Commerce in Paris. It is also so for your people in Buenos Ayres, where one third of the advantages of living in a new country are robbed from you by high rents and dear necessaries of life. In the United States it is the same. There is a marvellous telegram in the *Times* of this day describing the exodus of American emigrants from Kansas and Texas into the "reserve"—a strip of Cherokee just opened. 50,000 people are on the "track". The train of waggons, horses men women and children is 10 miles long. There is not land enough for them all, and before a simple plot of land is conceded, they are beginning to quarrel as to whether Reno or Oklahoma City is to be the capital of the new territory. In their haste to get to the promised land many were drowned in attempting to ford the rivers. The whole scene is a surprising proof of energy in pursuit of wealth, or at least of fresh soil; but one naturally asks, of what use is it to Europeans to throng the Liverpool landing stages on their way to America, when the Americans themselves have not room to settle or are discontented with the settlements they possess?

LATETST FROM RIO

(From the Rio News)

On the 13th the Emperor pardoned 64 life convicts and commuted the sentence of 58 others. From their names they appear to have all been slaves, with only one exception.

On the 11th inst. the minister of war ordered that the press-gangs employed in securing volunteers for the army should be disbanded. The military force of the empire has been completed.

It is expected that there will be a competition for the $1,000 prize offered for the best book on Brazil for use in attracting immigrants in Europe. Our money is all up on the man who wrote of S. Paulo that in that salubrious provnice only the native is subject to small-pox.

On the 11th Mr. Wyndham, H. B. M's representative at this court, gave a ball at his residence in Petropolis, at which the diplomatic corps, a considerable number of English and many Brazilians were present. The entertainment is reported to have been a great success.

A judical decision has just been rendered against Messrs Victor Nothmann & Co. for illegal use of the word "Singer" on sewing machines of German manufacture. The sentence is that of imprisonment, but as there are one or more appeals to be taken it is probable that this will not be carried into effect.

The director of the academy of fine arts has been instructed to open that institution to the public on Sundays and to furnish a catalogue of its treasures. The minister of empire advises the director to omit all criticisms from the catalogue, so that the untamed spirit of art appreciation in this community may have free expansion without being trammeled by the opinions of critics.

The celebration of the first anniversary of the adoption of the law of abolition has been observed in this city by illuminations, processions, a commemoration meeting at the D. Pedro II theatre by the Confederacao Abolitionista, and a general observance of the day as a national holiday. The public departments and many business houses were closed. The celebration, however, was much impeded by bad weather. The Emperor and Imperial family came down from Petropolis and were present at the various ceremonies of the day. There was no disorder whatever.

The *Gazeta de Noticias*, on the 6th, says the immigration agents who have contracts with the government are going to offer 1,000$ to the man who organizes the best immigration book.

Just because he chose to go barefoot in the streets a well dressed young man was taken before a police authority the other day. Certain well dressed women, however are allowed to expose their shoulders on the street without interference.

Purely a question of gender. The Italian consul wants to know, you know. He has addressed a communication to the inspectorate-general of health with the following inquiries; 1st—Is yellow fever extending through the provinces of S.Paulo and Rio Janeiro, and is it making victims in other places besides Rio de Janeiro, Santos and Campinas? 2nd—Has it assumed an alarming character in the provinces of Espirito Santo and Minas-Geraes? 3rd—Does *beri-beri*, developed in this city, tend to increase, and does it tend to become epidemic? The consul may feel assured of his answer, for it will be an emphatic „No" in every case.

During the past month there were 2,925 immigrant arrivals at this port and 575 at Santos, making a total of 3,500. Of these 1,530 were Spaniards, 1,172 Portuguese, 379 Italians, 156 Belgians, 119 Germans, 83 French, and the remainder of diverse nationalities. Of those landing in Rio only 200 remained in the city. During the same month 990 immigrants left for foreign ports. The total arrivals for the four months ending April 30th have been 27,785 for Rio, 15,924 for Santos, and 1,280 for Victoria, Espirito Santo; total 44,988. A considerable part of these, however, have been sent back home or have left the country for diverse reasons.

THE "RICHMOND."

This flagship of the United States naval force, on the South Atlantic station, commanded by Captain Allen V. Reed, U. S. N., arrived in this port on the 21st inst. from Montevideo. She left the United States January 3rd, this year, making the passage to the Cape de Verde Islands in 23 days, and from that point to Montevideo in 31 days, arriving in the latter port on March 8th. Rear Admiral J. H. Gillis, U. S. N., transferred his flag to her the following day from the U. S. S. Swarata, the latter ship being ordered to the Asiatic station. The Richmond is an old fashioned man-of-war, having been built so far back as 1858. She lacks many of the improvements of the late inventions in naval architecture, but in the words of the *Squadron Clipper* (a semi-monthly paper published on board the ship) "she is a roomy old vessel," and then in a burst of Yankee patriotism the editor writes: "Not a few of us appreciate the comforts and privileges we enjoy in her on this cruise. Long may the Stars and Stripes wave above the old ship that has borne them through so many perilous encounters; and when they are finally hauled down from her peak to be rehoisted on a more modern cruiser, let us joy in the thought that her name is written on the indelicable pages of our country's history and will go down to posterity as one of the bulwarks of our nation's honor." She was built and launched at a time when civil strife was menacing that noble republic, and her career was destined to be an eventful and stirring one. In 1861 she was one of the blockading squadron off New Orleans, where some hard fighting was done, and in '62, commanded by Commander James Alden, was attached to the Gulf fleet of the redoubtable David G. Farragut, whose name is a watchword for the American sailor, and whose memory will ever remain green in the hearts of all true Americans.

At the taking of New Orleans, where heavy blows were given and received, the Richmond played an important part. Again, at the battle of Mobile Bay, commanded by Captain T. A. Jenkins, she was where the rebel shot fell thick and fast, and the able manner in which she was handled while exposed to a heavy fire for hours at a time won for commander, ship and crew the applause and gratitude of a grateful country. The armament of the old wardog at present consists of 1 M. L. 8 rifle, 1 B. L. 60 pd'r rifle, 2 B. L. 20 pd'r rifles (bronze), 1 B. L. 3 rifle, 2 m/m guns, 1 short Gatling and 12 9 smooth-bores. Complement of officers 28, of crew and marines 330. The Admiral, with the following named members of his staff, is at present on board the U. S. S. "Tallapoosa", paying a visit to the Paraguayan capital: Medical Inspector T. N. Penrose, Lieut. W. M. Irwin, Lieut. T. E. Sawyer and Naval Cadet T. P. Kane.

The following is a complete list of officers of the flagship Richmond: Captain Allen V. Reed, Commanding; Lieut.-Comdr. Louis Kingsley, Executive Officer; Lieut. W. H. Everett, Navigator; Lieut. J. H. C. Coffin, Lieut. F. H. Crossby, Lieut. J. M. Robinson, Lieut. J. O. Nicol-Naval Cadet O. L. Beach, Naval Cadet F. B. Bassett, Boatswain William Anderson, Gunner George Fouse, Chief Engineer H. B. Nones, Medical Inspector T. N. Penrose, Pay Insp. James Hoy, Capt. R. L. Meade U. S. M. C., Chaplain W. G. Isaacs, P. A. Surgeon, R. Ashbridge, P. A. Engineer I. S. K. Reeves, Assistant Engineer J. W. Annan, Assistant Surgeon J. F. Keeney, Pay Clerk L. L. Brigham, Carpenter S. H. Maloon, Sailmaker John A. Long.

Railway Items.

OPENING OF THE CHUPUT RAILWAY—A FEW PARTICULARS ABOUT THE CENTRAL NORTHERN EXTENSIONS—ITEMS FROM LA PLATA.

Official advices were received yesterday announcing the opening on the 24th inst of the railway from Chuput to New Bay. Governor Fontana presided at the ceremony, which was solemn as possible at that dreary distance from the Athens of the south. The Chubut railway, which was built under the direction of Mr Bell, one of the proprietors of the concern, is about 30 miles long and is destined to carry the produce of the Welsh colony to the seaboard. Formerly, the settlers were compelled to drag their wheat along a dismal route to New Bay, one of the largest ports in the world. The railway now removes the obstacle of bullock-cart carriage, and meets a want. Will the railway pay, is still a question. Chubut is so far removed from the seats of trade, that it is a wonder there is any money or moveable capital in the place. But the Chubut wheat has a reputation in Europe, and the little Welsh colony is perhaps better known to the shippers and merchants in Liverpool than to most people in the Argentine Republic. Let us hope the new railway will tend to bring us close to the little settlement in the far South, and that by the impetus given to the local trade the prosperity of Chubut in the vast deserted territory of the South will shine like a candle in the dark, or a good deed in a naughty world.

We learn that Mr. H. Chevallier Boutell has been appointed legal representative of the Northern Railway of Santa Fe, a powerful company which has taken over Messrs. John G. Meigge, Son and Co.'s concession for 600 kilometres of railway from San Cristobal to Presidencia Roca.

According to official reports just to hand, the works on the Dean Funes and Chilecito Extension are going ahead briskly, the rails now reaching Soto station.

Mr. M V Rodriguez, the National Government commissioner appointed for the purpose of expropriation of lands for the Chumbicha and Catamarca Extension, has forwarded his report. We note that 2,180,820 square metres have been expropriated for the line at a cost of $24,424. The length of the Extension is about 65½ kilometres.

Messrs. Lucas Gonzalez and Co. have drawn up their estimates for the construction of the extension from Santa Rosa to Salta. The Board of Public Works is to report on these estimates.

Inspector Iriarte wrote yesterday to Dr. Araoz to state that the Rosario and Northern Railways no longer use kerosene to light their carriages. The Pacific and Ensenada lines still use the dangerous oil.

The Argentine Great Western has drawn up a new time-table to come into force on the 10th June.

Governor Paz is beginning to carry out a few of the ideas traced by him in his last message to the Provincial Chambers, and we note that a bill is now before the Legislature providing a uniform tariff for the railways in the province. The advantages of the measure are manifold and evident, for uniformity is everything. To the producer a uniform tariff would be as welcome a boon as an unprecedented harvest and a good market. To the traveller its advantages are also great. To the companies—aye, there's the rub..... We shall have to await the discussion in the Chamber before we can see how the companies are to fare—whether they are to be victimised for their own good and that of the public. Leaving the question aside for future consideration, we congratulate the Governor on the energy and rapidity with which he is beginning to carry out his programme in regard to railways. At the same time, it is significant that while he is endeavoring to sell the State lines, he is preparing to place the private companies under his thumb.

The Hudson petition for railway privileges, to which we alluded some time ago, is much more important than most people were inclined to think. The application is still before the Provincial Chambers. The following details will shew the importance of the concession:—

	Kilometres.
Ferrari to Monte	60
Monte to Alvear	130
Alvear to San Carlos	105
Alvear to Tapalque	40
Tapalque to Hinojo	60
Tapalque to Tordillo	150
Tordillo to Guamini	80
Total	625

The police have caught the rascals who gave the old lady such a fright last week by walking into her parlour at 8 p. m. and giving her the choice of her money or her life

EDITOR'S TABLE.

Most people wore a "Deo Gratias" look yesterday at the holidays being over. The Fetes were the most brilliant ever seen here, and the delightful weather on Friday favored them: but Sunday was a truly wretched day. We cannot possibly find space for description of all the gay doings—the review, fireworks, visit to both opera-houses of the two Presidents, the banquet at Government House etc. The latter was a truly gorgeous affair, and the "menu", from the Windsor soup (printer will please be careful not to make this Windsor soap) to the nuts was as perfect as money and French cooks could make it. The oldest frequenter of the place could not possibly recognize the "patio" of every day in the gorgeous fairy hall prepared for the banquet. It was quite a new thing in Buenos Ayres banquet experiences; and we doubt much if William and Humbert at Berlin, when hob-nobbing last week, had a better dinner or more splendid place in which to get outside it, than the two River Plate Presidents had on Sunday night. As for the company, all the great ones of the land were there, the Diplomatic Corps, the Legislature, the Bench and Forum, the Army, the Navy, the monetary and trading worlds, etc. The whole illustrious company got a prodigious fright just before the banquet began, owing to a loud cry of fire! One of the numerous flags was in a blaze, but the police and workmen tore it down in a minute. During dinner an orchestra of eighty professors under Furlotti performed. There were only two speeches that of President Juarez, proposing the health of his guest, and that of President Tajes in reply. Both were as short as those in vogue at an Imperial dinner in St. Petersburg or Berlin. After the Presidents had spoken the company rose, spent some time over

The cause of the sudden and unexpected rise in Poblodora Shares oozed out during the holidays, and was much commented on in banking circles. What was regarded as wild speculation is now proved to be what ship captains call dead reckoning, the purchasers last week being those only who were engaged in the new combination or their immediate friends and abettors; and the wonder is that the knowing ones in possession of so valuable a secret did not buy ten times as heavily, which must as sure as fate have driven the stock up another 30 points, without exaggeration. It appears that a local syndicate has bought up the concession of canalization for the sum of half a million Nats, together with 6 million square yards at one dollar. When it is remembered that the original cost of this ground was only 25 cents, whilst the thirty years concession was given by the National Chambers free of all charge, who can doubt that the shares are said to be the best buying to-day in the market; for it is proposed to give to cash holders of the original scrip a share in the new company plus 40 ojo dividend for the sale of the land. But this is not all, since the Poblodora remains with 15 million square yards of ground that must infallibly rise to five or ten times its present value "pari passu" with the advance of the canalization works. Many complain that Government should not have charged for so valuable a concession, forgetting "in toto" that but for Sr. Calvo's great ability in buying up all the circum-adjacent lands the widening and straightening of such a tortuous stream as the Rachuelo must have proved a losing business to any company, whilst if undertaken by the authorities themselves, would be a never-ending job it is to be hoped, in the interests of the numerous residents of the Boca and Barracas, that no further delays may take place, else one of the periodical Santa Rosa storms, vulgarly yclept a "Hopkins burster," may at any moment cause more loss of life and property than the whole cost of the works could reasonably be expected to amount to.

El pueblo de Brandzen en venta!
Lo que nunca se ha visto!
326 solares, 40 quintas y medias chacras
34 chacras y una fraccion de Estancia
CON POBLACIONES.
Para todos los gustos y todas las fortunas.
¡Atencion!
EN LOS LIAS
30 de Mayo y 2 de Junio
A LAS 12 DEL DIA

Procederemos a vender en remate publico y en los mismos terrenos el numero de solares, quintas, y chacras que se dejan espresadas, que constituyen el famoso campo que fue de doña Maria Faulkes, hoy del Consejo General de Educacion de la Provincia.—Por orden judicial dictada en el juicio sobre cesacion de condominio seguido por el Consejo General de Educacion de la Provincia.

Este campo que constituye ejido del pueblo de Brandzen, se reputa:—El mejor partido, el mejor del Sud, el mejor de la Provincia.

El que lo conozca, admitirá esto sin reserva; y el que no lo conozca, que se informe y confirmará la aseveracion.

Se encuentra cortado por dos vias ferreas, la del Sud y la de La Plata, se halla trazada otra para el Monte; se proyecta un mercado de frutos, un tramway a Chascomus; y se establecera alli la estacion principal de la empresa que ha presentado al superior Gobierno el proyecto de una red de ferro-carriles de la Provincia. Hecho esto Brandzen tendra como ningun partido, cuatro vias ferreas y un tramway. Fijarse: Cada comprador sera dueño de dar a su terreno el destino que desee, pues esta operacion no esta sometida a las condiciones con que el Gobierno vende los terrenos de ejido. Grandes ventajas—La venta se efectuara: una tercera parte al contado y las dos restantes a plazos de 3, 6, 9 y 12 meses con la guarantia hipotecaria del mismo terreno y con el interes de ocho por ciento anual; cuya hipoteca podra chancelarse antes de su vencimiento si los compradores lo pidieren, pudiendo sustituirse por otra de mas largos plazos en los Bancos Hipotecarios de la Provincia o la Nacion.

Observar—Que el pueblo de Brandzen segun el mapa del Estado Mayor del Ejercito Nacional se encuenta situado a doce leguas y fraccion de kilometros de la Capital Federal, o sea una distancia igual que la ciudad de La Plata. Este campo esta señalado para la agricultura, tambos, pastoreo de invernada y establecimientos industriales. Por lo espuesto puede afirmarse que Brandzen es y sera una situacion industrial y comercial-mente Estratégica. Este es un hecho real y evidente que puede palpar todo el que entienda de negocios. Tasaciones banisimas. Los solares se encuentran tasadas á cinco, nueve, quince, veinte y veinticinco centavos el metro cuadrado. Las quintas y medias chacras a 400 y 500 pesos m/n la hectarea. Las chacra a 200, 250, 350 y 400 la hectarea. Y la fraccion de Estancia con edificios a cuatrocientos pesos la hectarea. Las dimensiones de los solares, quintas y chacras constan de los planos que los interesados podran pedir en nuestra casa de remates y en los demas puntos que mas adelante indicaremos,

Para esta grandiosa venta: Temaremos como base las dos terceras partes de las tasaciones respectivas de donde resulta que se vendera tirado y escepcionalmente barato, siendo la venta forzosa por tener que liquidarse el condominio.

Advertencias — Devidamente autorizados exigiremos al firmarse el boleto el diez por ciento en señas a todos los compradores admitiendo giros contra Bancos. No habra escepciones. Caso de lluvia se transferira el remate para el dia de fiesta siguiente.

Por referencias y planos ocurrase en La Plata, nicasa Avenida 7 entre 49 y 50, Juan A. Carbonell y Cia. B. Aires, estudio del Dr. Luis F. Pintos. Rivadavia n 5 nm. Brandzen, oficina del Escribano D. MINISTERIO DEL INTERIOR
Habiendo dejado sin efecto la licitacion a que se llamo por aviso del 9 de Enero pasado para la terminacion de las obras de Riachuelo, por no haberse llenado los requisitos exigidos por la ley, llámase a nuevas propuestas por el termino de 30 dias para la terminacion de dichas obras con sujecion al proyecto definitivo de las mismas que podran consultar los interesados desde la fecha en el Departamento de Obras Publicas, y en la Secretaria de la Comisaria Administradora de dichas obras.

Las bases a que deben sujetarse los proponentes, ademas de las ya establecidas, son las siguientes:

1° En las propuestas debera fijarse un plazo aproximativo para la terminacion de las obras.

2° La expropiacion de los terrenos que fueren necesarios sera por cuenta de los proponentes.

3° Los precios de las obras seran unitarios—El pago se verificara en virtud de certificados mensuales que formulara el contratista de acuerdo con el inspector tecnico nacional de las obras que el gobierno nombre y que dependera del departamento de obras publicas.

4° Los proponentes se obligaran a refaccionar y reconstruir y reforzar los malecones existentes y en los puntos que se requiera mediante el previo convenio con el inspector.

5° El tren de dragado y demas utiles que se hallan a cargo de la comision administradora de las obras del Riachuelo, debera ser recibido por los contratistas y sera tenido en cuenta al formular los precios unitarios.

La entrega del tren del dragado como de cualquier otros utiles que los empresarios reciban, se hara bajo inventario, en el que se establecera el estado en que dichos utiles se encuentren a fin de que sean devueltos al gobierno a la terminacion de los trabajos sin mas deterio que el correspondiente al uso natural.

Las propuestas deberan presentarse en papel sellado de cinco pesos m/n. y acompañadas con un certificado de depósito en el Banco Nacional por importe del 1 o/o del valor de las obras y á la orden del Ministerio del Interior.

La apertura de las propuestas tendrá lugar en la secretaria del Ministerio del Interior, el dia 9 de Junio del corriente año, á las 3 p m., en presencia del escribano mayor de gobierno y de los interesados que quieran concurrir al acto.—Buenos Aires, Mayo 9 de 1889.— EL SUB SECRETARIO.

Licitacion para la enagenacion de los terrenos del puerto de la Capital,

En cumplimiento de la ley num. 2414, llámase á licitacion por el termino de sesenta dias para la enagenacion de los terrenos del puerto de la capital, debiendo las propuestas sujetarse á las siguientes bases:

1—Los terrenos cuya enagenacion ordena la ley num. 2414, son los que resultan ganados al rio por la construccion del puerto de la capital de la Republica, fuera de los casos que se presentarán en las presentes bases.

2—El Gobierno Nacional no aceptará propuesta alguna sobre fracciones parciales de los terrenos, ni por secciones independientes. Las propuestas deben ser generales por toda el area ganada al rio.

3—El licitante-comprador recibira los terrenos en los plazos previstos en los contratos de los señores Eduardo Madero é hijos, para la entrega de las nueve secciones de las obras, en la proporción del terreno ganado y del pago correspondiente á la terminacion de cada una de ellas.

4—El Poder Ejecutivo establecerá la ubicacion y medicion por secciones, epocas de su entrega, extension é importe de los terrenos á entregarse, debiendo quedar definitivamente entregados el 30 de Setiembre de 1892, de conformidad con el art. 16 del contrato de 6 de Octubre de 1886, salvo prorogas que se acuerden al constructor.

5—El licitante que adquiera los terrenos hará por su cuenta el pago de la suma que el Gobierno debe abonar á la empresa constructora del puerto, con sujecion al contrato celebrado por el Poder Ejecutivo con los señores Eduardo Madero é hijos.

6—Ademas de la suma que el licitante debera abonar con arreglo á la base anterior, determinará en su propuesta el precio que ofrezca pagar por cada metro cuadrado de los terrenos que le sean entregados, precisando la epoca, forma y demas condiciones para el pago; el termino para efectuar este no podra exceder del establecido para la terminacion de las obras del puerto y si la empresa constructora no aceptara la sustitucion a los efectos de la base 5., el licitante que adquiera los terrenos abonará en la Tesoreria Nacional el importe de cada seccion, 30 dias antes de la fecha en que el P. E. deba hacer el pago a la empresa constructora.

7—Se fijaran para cada seccion, de acuerdo entre el gobierno y el adjuticatario, previa intervencion del departamento de ingenieros y con arreglo a los leyes, decretos y contratos que rigen las obras del puerto, las condiciones y planos en que se construiran las vias publicas, plazas, estaciones de ferro-carriles y demas edificios publicos nacionales ó municipales, asi como las partes del terreno destinadas gratuitamente para el efecto o reservadas para la construccion de los depositos y galpones o para el uso de los trabajos del puerto. Sera adoptado igualmente con intervencion del departamento de ingenieros, un sistema general para la formacion sucesiva de las partes subterraneas o superficiales de las vias publicas, para la coordinacion de las lineas de tramways, ferro-carriles, teniendo siempre en vista la mayor valorizacion de los terrenos y la mejores facilidades para ser vendidos y edificados. Todo lo que se refiere a construcciones hechos por cuenta del estado, será asi mismo arreglado entre el gobierno y el adjudicatario, con intervencion del departamento de ingenieros.

8—De conformidad con el inciso 4, del articulo 1, de la ley de 27 de Octubre de 1882, reproduciendo en el inciso 2. del articulo 7. del contrato del 22 de Diciembre de 1884 y completado por la informacion de los Ingenieros de la Empresa del Puerto de fecha 14 de Diciembre de 1886 y por los presupuestos aprobados el 30 de Setiembre de 1886 y confirmados en el contrato de 6 de Octubre del mismo año, los terrenos seran entregados desagotados y asegurados contra todo peligros de infiltracion o estacionamiento de las aguas, construyendose para el efecto los canales que sean necesarios por cuenta del contratista del Puerto, debera tener sobre el nivel medio de las aguas la altura media uniforme prevista e indicada en los incisos 7. y 9. del articulo 2. de los considerandos del decreto de 6 de Abril de 1886, con las reservas formuladas en el referido inciso 7. si hubiere lugar; de manera que los terrenos estaran habilitados para recibir desde su entrega todos los trabajos adoptados entre el Gobierno y los ajudicatarios para las vias publicas.

9—Si el ajudicatario comprobase el no cumplimiento de algunas de las clausulas comprendidas en la base 8, el Gobierno, de acuerdo con las leyes, decretos y contratos que rigen la materia, las exigira por los medios a su alcance, en el mas breve plazo a los constructores del puerto.

10—El gobierno y el ajudicatario tomaran medidas de prevision para la conservacion de las secciones de terrenos entregados, en lo que se refiere a las obras en ejecucion y sobre todo a los terrenos situados entre el malecon y los diques. A este efecto, las propuestos para la compra deberan contener una serie de condiciones y presupuestos correlativas a las obras accesorios que se refieran a la entrega de los terrenos, de manera a asegurar no solo su adquisicion sino su conservacion y edificacion. Todo terreno reconocido de comun acuerdo y por el transcurso del tiempo como poco apto a este doble fin y como imposible a garantir absolutamente el peligro de las aguas, quedara fuera del contrato y devuelto al dominio del estado.

11—Las propuestas deberan llenar los requisitos exijidas por las leyes que las motivan y a general de obras publicas y se presentaran en papel sellado de cinco pesos m/n., acompañadas de un certificado de deposito hecho en el Banco Nacional por la cantidad de ($100,000 $ m/n) cien mil pesos moneda nacional, a la orden del Ministerio del Interior.

12—La apertura de las propuestas tendra lugar en la Secretaria del Ministerio del Interior el dia 29 de Mayo proximo, a las 3 p.m., en presencia del oficial mayor, del escribano general de gobierno, y de los interesados que deseen concurrir al acto.

13—El P. E. se reserva el derecho de aceptar la propuesta mas ventajosa que consulte los intereses publicos, o de desechar todas si las creyere inadmisibles.

Dr. J. Collis Browne's
CHLORODYNE.
THE ORIGINAL AND ONLY GENUINE

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. To his Excellency the Viceroy's Chemists.

Caution.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Caution.—Beware of Piracy and Imitations.

Business at the ring this morning was very important, due to the advent of the liquidation, as otherwise so many holidays would have had a most enervating effect on the brokers. National Bank Shares improved to 257.50 at the start, but there were so many sellers at this rate that it fell to 254.50 was soon registered, when another reaction took place, the quotation advancing to 256.50 and closing a point lower; for end of June there were many good buyers, and the opening quotation of 260 was maintained for some time, eventually closing at 259.50. Nobody seems to understand the exact state of the speculation, the general opinion being that the market is overbought, but it was said that the British syndicate had secured money to take up the shares, and this, if true, will put quite another complexion on affairs. Credito Real Shares, strange to say, were entirely neglected. Bolsa Bank Shares fell away to 54 for cash and 53.50 end of month, and Flores Constructors to 105 also for end of month. General Pobladora Shares advanced to 151 end of month and 154 end of June, one lot of 180 shares finding a purchaser at 180 for end of December. The Banco de la Plata Moles simply staggered the ring; opening at 155 for end of month, they soon rose to 165, and closed at that rate buyers, whilst for end of June they rose to 170 and closed at 169. Constructors were firm. In Cedulas, the National series show further improvement and are in great demand, whilst Provincial series are daily weaker, the N series falling to-day to 75.20, a truly desperate rate for an 8 o/o stock.

The following is a summary of operations effected this afternoon during the first ring:—

The great news on 'Change to-day was from London, telegrams having come out to Mr. Anderson, manager of the London and River Plate Bank, advising him that his board of directors had decided to come in under the Free Banking Law, subscribing for the amount of one million gold dollars. With respect to the English Bank of the River Plate, Mr. Jones, the manager, has sent the projects to the London board and awaits its decision. It was whispered on 'Change that the Nuevo Banco Italiano will not come in under the law, but remove to Montevideo, keeping only an agency here. As a second Italian Bank has just been started in Montevideo and the shares all taken up by the most influential people there, it is difficult to see what opening there is in Montevideo for the Nuevo Banco Italiano, which is a Buenos Airean concern.

Three steamers Costa Rican, Horrocks, and Equateur have taken about £250,000 in gold to Europe. This may probably account for the dearness of gold in the market at present, as 160 was freely paid this evening, and we heard of a gold purchase for a good round amount for May 1890 at 160, business done from house to house.

Advices from Paraguay announce the sale of the Asuncion Tramway for 400,000 mjn; Mr Ogilvie buyer. This tramway was offered in this market and could find no purchaser. We believe Mr. Ogilvie has done a good business and congratulate him on it.

Mr. E. Casey arrived up from Montevideo yesterday to attend the grand banquet to President Tajes at the Government House last night. He leaves to-night for Montevideo.

In banking circles it is said that a very large advance on National Bank Shares has been arranged. We hear 22 millions. Sr. Larrazabal is the broker who arranged the business. This is one of the largest transactions in this market for some time.

The news from Montevideo is most favourable. Obras Publicas Shares 111½ cash, and the rumour is that sellers for the end of the month are short, and have to buy a large amount to meet their liquidations.

On the estancia Doña Juanita, Mr. Emil Schroeder's fine estancia-property in the province of Cordoba, several herds of cows have been lately sold at the rate of $13 mjn per head, large animals and in prime condition. The price speaks the quality of animals and camps. What would the estancieros of the South not give to sell their cattle at such prices?

The s.s. Teviotdale sailed on the 26th direct from Campana for Glasgow with 18,000 frozen sheep from Messrs. Drabble's establishment, and 800 bags maize.

Mr. Campbell Ogilvie, Deputy-Chairman of the Anglo-Argentine Land Company, was welcomed to-day on his return from Paraguay, where he spent a month studying that beautiful country between Asuncion and Villa Rica. At the latter place he met our gallant friend Commodore Hunter Davidson, who is in excellent health and spirits. Mr. Ogilvie will return to Paraguay in a few days: Paraguay, they say, has a great magnetic charm.

We heard to-day of a new company to be formed with a capital of 40 millions in 8 series of shares of 25 to 1000 dollars, to foment immigration on a large scale. The promoter is Mr. Rosenda, and the statutes are shortly to be submitted to Government for approval.

In exchange nothing is doing, but the market is unchanged and will probably remain so until after liquidation.

In the produce markets matters are very dull. Prices keep up, but there is little or nothing coming in from outside.

Money is easier on the market than many suppose; and we heard to-day of money offering at 12 o/o on National Bank shares at 220.

Mr. J. H. Chevallier Boutell has been named local Director of the River Plate Electricity Company, and authorized to represent the new company that is to take over the Bleckert brewery, a concern that in such capable hands bids fair to compete with and bowl over all the foreign brands so extensively consumed in this beer-drinking country. Mr. Boutell received the necessary powers to register the Company to-day.

The news that the syndicate had received the money to take up National Bank Shares spread like wild-fire through the hall at the second hour, and although poohpoohed by some, it exerted a most direct effect on the quotations, which closed firm as a rock at 257½ for end month and 261 end June. This firmness, so close to the liquidation, shews unmistakably that the market is now ripe for a boom; and it is now expected that before the end of June the shares will be held at 270, or perhaps 280. In the other stocks speculation was also ripe, owing to the covering operations. Constructors fell away to 134 for end of month, and 137½ for end of June. Credito Real closed at 142, and Pobladora at 156. Bolsa Bank showed a slight improvement, but La Plata Moles closed at 164 for end of month, which though slightly under the morning rate, still shows an enormouse advance in price, considering that they started on their headlong career at 134. As for Cedulas, the National series again advances, which shows the appreciation of these stocks. D closing at 83 for cash and 84 for end of monih, and G at 86. Provincial kinds were depressed and dull.

It is rumoured that the Obras Publicas Co of Montevideo have sold in London the electric light establishment with one cession to a new company formed for the purpose, and that they have also sold their tramways in London to a company just launched; both these large transactions leave splendid profits to the Obras Company. In fact they say in Montevideo the Company has made more than half its capital in the business. The board of Directors of the Obras Publicas Co Montevideo has decided to withdraw from circulation and destroy the 31,000 shares over issue, and for this purpose calls for bids to be sent in by 10th June for 21,000 shares, as the 10,000 shares improperly held by the Italian Bank in Montevideo are assigned by the board for the purpose. Parties making bids will have to make a deposit of 10 per cent in shares.

The Granja National effected two sales yesterday, one being the house property Berrutti 759, for $18,600, buyer Mr. E. Gerding, and the other a chacra in Bragado containing 290 hectares at 52 dollars the hectare, buyer Mr. F Trejo.

The Duchessa di Genova has made another splendid run home from Montevideo to Genoa, 18 days. She was crowded with first-class passengers who have telegraphed a splendid trip. The service on this steamer is the same as at a first-class hotel in Paris, fourieen dishes for breakfast, with chianti.

The Provincial Mortgage Bank is organizing a service in Europe for the payment of coupons and amortization. We suppose it will be carried, but it would be far better for the bank to organize itself here, and stop all further issue of Provincial Cedulas for awhile. The amount of Provincial Cedulas out in circulation at present is simply enormous, and some of the 6 per cent series are now being thrown daily on the Bolsa to exchange for 8 per cents; thus the holder of 6 per cents F. can sell at 69 and buy 8 per cents at 75, and they say on 'Change that every bank in town has its safes full of this series F., none of which ever went abroad.

When will Cordova stop borrowing? The news to-day is that there is another Cordovese loan on the tapis. We don't know the amount, but suppose it will be about 20 to 25 millions; one half to increase the capitol of the bank and the other half for public works. The loan is being arranged by parties in this market, agents, we suppose, for the Paris and Berlin syndicate.

We received to-day a communication from Capt. H. R. N. Stewart, inventor of the patent pack-saddle, concerning which an article appeared in these columns some few months ago. Captain Stewart writes to say that the weight of the saddle is only 21 lbs., and not 211 lbs. as appeared in the article mentioned.

The London correspondent of the Bolsa cabled to-day the news that £650,000 has been emitted for the Santa Fé and Cordoba Southern Railway Company in debenture stock.

The s.s. Heliades clears to-morrow for Liverpool direct with mails and passengers.

According to telegraphic advices from Genoa the s.s. Carlo R. left that port yesterday for the Plate.

The s.s. Pleiades and Herschel, Lamport and Holt packets, have arrived in Montevideo with a total cargo of 3650 tons for this port; they will be up to-morrow.

According to Mr. Navarro, 110,000 immigrants arrived in Buenos Aires from 1st January to 25th May, or say 763 immigrants daily. This looks like getting close to the 300,000 estimate for the year.
